(908) 801-0347

UX/UI Designer specializing in **Artificial Intelligence-First Design** for agentic experiences. I bridge complex AI research with intuitive human experiences, driven by a philosophy of **agentic coding** and high-velocity innovation that respects the user's mental models.

Experience

Google Deepmind|AIUX | UX Designer

Feb 2025 – PRESENT

Designed a vision for an Artificial Intelligence first assisted experience for collaboration, enabling AI agents to actively participate in human-to-human interactions by translating unstructured human intent into structured system responses, supporting more proactive, real-time collaboration.

- Executed rapid prototyping workflows using AI Studio (agentic coding) to validate product concepts and technical feasibility.
- Built and evaluated a proof-of-concept autonomous agent, defining interaction logic and delivering a working prototype approved by Director-level leadership for further development, including voice input/output interactions to create a more natural, assistant-like user experience.
- Partnered with engineering to test and refine interaction patterns using agentic coding, ensuring scalable and consistent UX across evolving model capabilities.
- Conducted **research** to uncover friction in agent workflows, turning behavioral insights into actionable product improvements.
- Conducted **competitive research** on AI capabilities to inform product strategy and feature design.

Metuchen Christian Acad. | 4th Grade Teacher

Aug 2022 – Feb 2025

- Developed inclusive lesson plans for diverse learning styles, resulting in measurable student progress.
- Fostered a collaborative, engaging classroom environment, encouraging participation and a love of learning.
- Maintained strong communication with parents and colleagues to support student development.
- Applied structured thinking, empathy, and adaptability—skills directly transferable to human-centered AI design

Education

New Jersey City University

2015 - 2018

Bachelor of Arts Psychology

Columbia University

2024 – 2024

UX/UI Bootcamp

Certificate

Coursera

2025 - 2026

Google UX Professional Certificate

Skills & Languages

Design Tools

Agentic Design · Figma · Sketch · Adobe Creative Clouds · Principle · InVision · Zeplin · HTML/CSS · JavaScript · Jira Data visualization · User research · Affinity diagram · User flow · Journey mapping · Wire-framing

Skills

Agentic Coding (Antigravity) · GitHub · Figma · Vercel · Agentic UX · Behavioral Synthesis · Strategic Research · User Research · Usability Testing · Journey Mapping · Personas · Storyboarding · Affinity Diagrams · Information Architecture
